

## Project Summary Template

This document is intended to provide a summary understanding of the high-level vision of your project goals.

<b>Company Name</b>	GBC – Literacy Uplift SSHRC Project								
<b>Company Address</b>	C467								
<b>Company Website</b>	Literacyuplift.georgebrown.ca								
<b>Telephone</b>	416 415 5000 x6642								
<b>Contact</b>	Przemyslaw Pawluk								
<b>Title</b>	Professor								
<b>Email</b>	ppawluk@georgebrown.ca								
<b>Telephone</b>									
<b>Project Title</b>	Literacy Uplift – web extension								
<b>Project Description</b>	<p><b><u>About the company:</u></b>  Literacy Uplift is a research project funded by SSHRC and GBC to explore design guidelines for mobile literacy learning solution. As part of this endeavor the team is prototyping and testing learning solutions.</p> <p><b><u>About the project:</u></b>  This project will be part of the Literacy Uplift project that will provide a prototype of a web extension/back-end for the mobile application created in the previous iteration. Students will be working with the team of experts to identify requirements and implement the web-based solution that will support our mobile application.</p>								
<b>Problem/ Opportunity Assessment *</b>	<p><i>Please describe current state problem/opportunity that describes the nature and extent of the problem (factual, quantified, concise), or that outlines a chance for advancement or progress.</i></p> <table border="1"> <tr> <td>1</td><td>Current application does not provide persistent storage and login functionality</td></tr> <tr> <td>2</td><td>Current solution does not have any community features</td></tr> <tr> <td>3</td><td>Current application does not provide teachers with tracking tools</td></tr> </table>	1	Current application does not provide persistent storage and login functionality	2	Current solution does not have any community features	3	Current application does not provide teachers with tracking tools		
1	Current application does not provide persistent storage and login functionality								
2	Current solution does not have any community features								
3	Current application does not provide teachers with tracking tools								
<b>Desired Project Outcomes/ Requirements*</b>	<p><i>Define how this project shall address a business need, e.g. the business problem or opportunity described above; describe what the beneficiary must be able to do / receive from the solution</i></p> <table border="1"> <tr> <td>1</td><td>REST web-service supporting login and storage of user data</td></tr> <tr> <td>2</td><td>Web-based solution for students and teachers allowing for progress tracking and data management</td></tr> <tr> <td>3</td><td>Chat functionality for students and teachers (web-based)</td></tr> <tr> <td>4</td><td>Integration of the newly developed features with an existing application</td></tr> </table>	1	REST web-service supporting login and storage of user data	2	Web-based solution for students and teachers allowing for progress tracking and data management	3	Chat functionality for students and teachers (web-based)	4	Integration of the newly developed features with an existing application
1	REST web-service supporting login and storage of user data								
2	Web-based solution for students and teachers allowing for progress tracking and data management								
3	Chat functionality for students and teachers (web-based)								
4	Integration of the newly developed features with an existing application								

<b>Key Deliverables to be produced by students*</b>	<i>Define the boundaries of work that you expect to receive from the students effort (vs. internal effort)</i>	
	1.	Web application for teachers and students
	2.	Web-server supporting the application
	3.	Chat functionality
<b>Desired Start Date</b>	Sept 2018	
<b>Desired End Date</b>	Mar 2019	
<b>Attachments</b>	<i>List attachments that support project description</i>
