Toronto ON M3B 2S6

Dear Sara Smolej,

I am submitting my resume for the job posting on your official webpage I have researched for the position of Application Solution Architect.

I found that many of the requirements for the position strongly matched some of my qualities and experience. I have been in the music industry since the age of 14 and strongly understand the dynamics of artistic production and business. My Bachelor in Arts came complete with marketing and business courses tailored for the music industry and my new college education at George Brown College is giving me the necessary technical skills to work with fellow developers. I also have experience in leading teams or classes but know how to follow when it is required of me.

I would appreciate you taking some of your time to view the resume I have attached and look forward to hearing back from you in the near future. I can be at 289-685-9585 or at maximpaxton@gmail.com.

Respectfully yours,

Maxim Thomas Paxton
